

Fact Sheet

McKinney National Airport (DTX) is a premier aviation facility in North Texas offering commercial airline flights beginning in November 2026 and supporting general aviation operations since 1979. One of three commercial service airports in the Dallas metroplex and located about 30 miles north of downtown Dallas, DTX is operated by the City of McKinney. The airport's service area includes 235,000 city residents, more than 400,000 visitors annually, 1.3 million people in Collin County, and the surrounding populated region that is thriving due to rapid economic growth. DTX supports 1,560 jobs and generates more than \$299 million annually to the region, which is expected to increase to more than \$700 million as the airport continues to take off.
